What will be Done with the, Centennial Exposition Buildings.

There will be a general sale of a. m. The list comprises the main building and carriage annex, agricultural hall, pomological an-nexes, the art annex, photograph-er's exhibition building, shoe guard, station house, and various other small buildings. Particulars of the sale will be furnished in pamphet form, on application, ten days before the appointed time. The sale was authorized

the city at the close of the exhibition will probably prove not well founded, as with only one exception they are of frame, and, aside from the danger of fire, the continuous expense in painting and repairing would soon equal the original cost of the structures, thus detracting from their actual value for park purposes. The Ohio State building, unlike the rest, was erected almost entirely of stone, and has been so substantially built that it will for years preserve its present appearance as an ornament. The original intention was to present this strucaction has been taken in the matter, it is probably that some ar-Keep on hands all kinds of School Books, made at an early day.
